

PROFILE

Nexicom Systems Inc
(Telecommunications Distributor)

Over 80 years of experience
providing solutions for leading-
edge OSP services for Customers

Knowledge and experience
extend beyond OSP into the core
network

Strategic commitments allow us to
maintain extensive product
knowledge and support for these
product sets

Where we may not boast in
selection, we boast in product
information, industry knowledge,
trust and experience

Application The CraftSmart® FiberFirst Pedestal provides a secure, above-ground access point for fiber-to-the-home (FTTH) networks. The internal components of the pedestal are optimized for fiber-only deployments and offer configuration flexibility to suit the needs of the network. The unique "open canvas" design provides mounting options for a wide range of Clearfield® products, supporting PON and splice only applications and YOURx® and MPT access terminals. The unique interlocking cover is designed to be free breathing to minimize condensation and allow any internal moisture to dissipate.

Features and Benefits

Integrity

- Constructed of durable, UV resistant material for maximum security and service life
- Two-part system – 2-part bolt together base and interlocking 2-part pedestal covers, all made with a high impact resistant Thermo Plastic Material
- Designed to meet and exceed GR-13, the unique interlocking cover is designed to be free breathing to minimize condensation and allow any internal moisture to dissipate

Protection

- Two-part interlocking cover provides protection from the elements.
- Two industry standard telco security screws (216) attach cover to base
- Direct bury base provides a uniform and secure installation while reducing the chances of leaning or tilting

Access

- Removable front cover provides complete access to inside of pedestal
- Built in multi-use backplane integrated into rear cover provides multiple mounting options for a wide variety of equipment

Investment

- High strength rigid construction ensures long term reliability in the harshest environments
- Multi-use pedestal can be used and deployed in multiple applications, eliminating the need for multiple specialty pedestals and reducing SKU's
