## COMMITTED STOCKING DISTRIBUTOR...

### NEW COYOTE® DOME CLOSURES WITH UNIVERSAL ORGANIZERS

COYOTE Dome Closures...with Universal Organizers are the most flexible splice closures that PLP has to offer. These closures incorporate the newly designed universal organizer system with PLP's patented segmented end plate and grommet sealing system. The universal organizer neatly manages and stores an assortment of buffer tube and ribbon fiber optic cable types and accepts the full line of COYOTE Legacy, LITE-GRIP®, and Flip Splice Trays. The segmented end plate and grommet sealing system allows for easy installation of a variety of cable sizes and provides a quick and easy way to access and remove cables to upgrade to a larger closure size when expanding the fiber optic network. These closures are truly adaptable to fit any splicing need.

### FEATURES AND BENEFITS

- Eliminates the need to order and stock multiple versions of the same product • Available dome closure sizes: COYOTE® ONE, 6.5" x 17", and 6.5" x 22"
- Organizer provides slack storage for any fiber optic cable type
- Organizer has molded in mounting platform to install COYOTE Flip Splice Trays
- Organizer can be converted with mounting posts to allow for installation of COYOTE Legacy and LITE-GRIP Splice Trays
- Segmented end plate design provides independent access to each cable port without disrupting surrounding cables
- Flexible grommet sealing technology supports a wide range of flat and round cable profiles
- Can be used for cross-connect applications
- Designed and tested in accordance to Telcordia® GR-771-CORE Buried, Underground, IP-68 Rated Requirements
